

## Senior and Junior Hockey Teams Provided Good Games

### Pincher Creek Here To-Morrow

**Coleman Reinforced by Star Players of Hillcrest and Bellevue Gave Blaimore Hard Tussle**

Coleman and Blaimore hockey teams played a fast exhibition game last evening (Monday), Blaimore winning by 4-2.

Coleman team had been strengthened by Nick Andruschuk of Hillcrest, D. Turner and G. Brooks of Bellevue, with the result that one of the most keenly contested and fastest games on local ice this season was played, giving the fans a real treat.

In the first period Kemp, the Blaimore goalie, was receiving shots thick and fast, and turned them aside, the period being scoreless.

In the second Dicken opened the scoring for Blaimore and two minutes later it was evenced by Turner scoring for Coleman.

In the third McVey, McKay and Dicken scored for Blaimore, and Turner again for Coleman on a neat pass from Frank Vejpreva, who fooled Kemp, the Blaimore goalie, by passing the puck to Turner as he made a solo rush on Blaimore goal. Cologrosso, Coleman goaliekeeper, on the scoring of the goal by Dicken for Blaimore, skated out of the nets and protested against the goal being allowed, claiming it was off-side. He was penalized.

Penalties were handed out to Dicken and Evans of Blaimore, Fraser, Turner, Vejpreva and Cologrosso of Coleman.

A series of exhibition games will be played between Bellevue, Coleman, and Blaimore in the next two weeks.

The line-up:  
Coleman--Cologrosso, goal; F. Vejpreva, N. Andruschuk, defence; Turner, Brooks, Fraser, forwards; Gate, Lilya, Kubin, Jenkins subs.  
Blaimore--Kemp, goal; Manson, Evans, defence; Oakes, McVey and J. Kemp, forwards; Dicken, Anderson, subs.

Referee, M. Rhynas, Blaimore.  
Coleman Juniors defeated Blaimore Juniors at Blaimore on Monday evening by a score of 3-2.

The exhibition games arranged by the Pass teams will keep up interest for awhile longer this season, if the same standard as Monday's game is maintained. There was action all the time, and in the first period particularly. Blaimore goalie, "Eagle Eyed Kemp," had a busy time. The boys all played a fine game, and deserve a good hand for their efforts. Andruschuk, Turner and Brooks helped to speed up the locals and were right on their toes with the Coleman boys.  
Bill Gate got in a few wicked slams but failed to score, while Frank Vejpreva was there with his solo rushes as usual. Everyone certainly had their money's worth.

George Neil, proprietor of the Men's Store, has been seriously ill with a poisoned hand, caused by a scratch from a nail. The infection developed quite alarmingly the latter part of last week, necessitating his remaining at home since.

**HILLCREST JUNIORS TIE WITH COLEMAN, 3-3, IN OVERTIME**

Hillcrest Juniors invaded the local juniors' territory last night and engaged them in a strenuously fought game, the score being tied three-all after an overtime period had been played. It was an interesting contest and was somewhat enlivened when Johnson and Andruschuk tangled.

Shortly after the game started, W. Richards scored a goal for Hillcrest. A fast game was played during this period and towards the close J. Oliver evenced the count for Coleman. H. Clifford scored for Coleman, and Goals De Cecco scored for Hillcrest. This shot was put in accidentally by the net minder. The score again stood a tie, 2-2, at the end of the second period.

The score remained 2-2 during the third period, but towards the close M. Korman was knocked unconscious for several minutes. He was later carried to the hospital on a stretcher.

In the overtime period, Hillcrest scored the first goal, and shortly afterwards R. Pattinson scored for Coleman, the score standing a tie, 3-3, at the end of the game.

The teams lined up as follows:  
Hillcrest--Goal, J. Ellick; defence, W. Richards, C. Grant; forwards, R. D'Amico, C. Richards, B. Cruikshank; subs, A. Branchim, R. Letcher, N. Andruschuk.

Coleman--Goal, T. De Cecco; defence, R. Johnson, F. McLeod; forwards, J. Oliva, B. Fraser, R. Pattinson; subs, C. Clark, M. Korman, H. Clifford.  
V. Cologrosso refereed.

The junior hockey team is still going strong, and those who turn out to the games enjoy plenty of thrills. The boys are doing splendidly, and are financing themselves from their gains and coming out on top financially. On Friday evening (Jan. 31) they are putting on a whist drive and dance in the K. of P. hall, the proceeds going towards their club funds. Alternat orchestra will play for the dance after the whist drive. Give the Juniors a hand by buying a ticket.

### IT WASN'T A ROBIN

Central School,

Jan. 24th, 1930.

I saw the bird that Mrs. Thomas described as a robin. It appeared like one at first glance, but the red was too tight to be a robin. It was a Pine Grosbeak, which is an irregular winter visitor from the north. Its head, breast and back are a kind of pinkish red. We can't look for this bird at any definite time, for it comes when the spirit moves it, apparently.

JIM COUSINS.

Editor Bartlett of The Enterprise headed a contingent of Blaimore hockey fans on Monday night, at the game between Coleman's team of "all-stars" against Blaimore Bears.

### Town of Coleman

## Annual Meeting

NOTICE is hereby given that the Annual Meeting of the electors of the Town of Coleman will be held at the Council Chambers on Friday, the 31st day of January, 1930, at 8 p. m.

Dated, Jan. 23rd, 1930.

JAMES FORD, Sec.-Treas.

### Only a Telephone Cord -- but!

What infinite care and preparation were necessary to call it into being. From the far corners of the globe came silk and cotton while earth yielded up its copper ore. Famous scientists, engineers of renown and workers skilled in their particular operations have all contributed to produce these connecting sinews of modern communication. In the Northern Electric Company's great plant at Montreal the finest copper wire is made, and the most intricate machines are used to twist the necessary size and, passing through the most intricate machines, is covered with a braided silk covering. This must be done with the utmost care, for the telephone cord is to carry the nation's conversations for many years.

## "Old Gold"

Winter Sunset in the Rockies of Southwestern Alberta.

Beautiful "Old Gold," the color of ten read but seldom seen, is strikingly presented these late January afternoons on the summit of "Old Crow" (Crows Nest Mountain) as the sun with its dying rays gives a lingering farewell to daylight hours.

It is a sight to inspire one with even greater love that he already might possess for these majestic mountains, the finest asset Canada has from an artist's viewpoint. Thousands of visitors admire the glory of the mountains during the summer, yet probably never have the pleasure of seeing them in winter.

To live among them is indeed to love them. The late Dr. Michael Clark, M.P., would occasionally refer on the public platform in various parts of Canada to the intense pleasure he would derive from sitting in his Alberta home in Red Deer district admiring the beauties of the foothills, and how it would compensate him for tearing himself away from his beloved homeland in Britain.

The mountains and foothills indeed possess a charm which is irresistible, and oft recall to one the very truth of the Psalmist who voiced his feelings in those oft-quoted words, "To the hills will I lift up mine eyes, from whence cometh my strength."

Inspiration in many ways comes to those who live in the shadow of the mountains, and probably their influence is felt to a marked degree by those who perchance have lived the earlier part of their lives in a teeming city or on the wide expanses of the great grain growing prairie stretches of Canada's glorious west. "Old Crow," most appropriately named "The Sentinel of the Pass," to which it gives its name (Crows-Nest Pass) has much of historic legend to give it an atmosphere of dignity. It is first officially recorded by Pellier's expedition of over fifty years ago, but for centuries has its lofty dome been looked up to; first by the Indians--the original inhabitants of the land--and in later years by the thousands who by pack-horse, train and automobile have journeyed

About 1200 men are working this winter on railway construction on the link between Kootenay Landing and Proctor, states the Granbrook Courier.

### SCHOOL MEETING

FRIDAY NIGHT

Attention is called to the annual meeting of ratepayers of Coleman School District to be held on Friday evening in the town hall. The financial report for the year and reports of the trustees covering their year of office will be submitted to the meeting, and all who have the interests of the schools at heart should make it a point to attend.

It is improbable that Mr. Thos. Johnson, who so faithfully filled the office of chairman of the trustees, will again stand for office. He left several months ago with his wife to take severance in Arrow Park district, British Columbia, owing to suffering from acute asthma, and no definite date has been set for his return.

### EMIGRATION AND ENTERPRISE

A change has been taking place in the type of the men and women who find their way across the oceans from Great Britain to make new homes in Canada, Australia, New Zealand and South Africa, and it is a change for the better. The unemployed British worker, when without resources of his own, is increasingly tending to remain at home, where the state provides for his support. The British Labor Government has even had to send out appeals this year in order to complete a group of 3,000 workers for whom the Canadian authorities had undertaken to find work, although subsidized training and assisted passages were among the attractions offered. On the other hand, 41,000 people paid their own way to Canada between May and March, the busy time for emigration, being an increase of 47 per cent over the corresponding total for 1928.

The majority of these independent folk took advantage of a reduction to £10 in the rate of passage money introduced last January, applying to those who have work to go to or who can produce evidence that they are in a position to support themselves when they go. *Balance so made good among them is said to be rare.* On the other hand, out of 8500 assisted British emigrants who went to Canada in 1928 as harvesters, less than 3000 eventually settled in that country. This means that the British Commonwealth of Nations is drawing new citizens from the very best elements in the population in the old country and that British emigration is becoming not so much a remedy for unemployment as an outlet for enterprise--Christian Science Monitor.

Prize winners at the whist drive and dance held in the K. of P. hall on Saturday were Mrs. B. Westworth, Mrs. J. Derbyshire, J. Jaschok, W. Martland.

## Improvements Made at Coleman Hotel

Renovated From Top to Bottom and Structural Alterations Added to Convenience.

The pioneer hotel of Coleman has recently undergone extensive alterations, and improvements, thanks to the enterprise of B. Bertie, who states that several thousand dollars have been expended in the work besides the installing of new furniture in most of the rooms.

The ground floor has been improved by the addition of a comfortable office, and the bar has been changed and re-decorated. The rooms and corridors have been re-decorated in pleasing colors, and the entire interior presents an inviting atmosphere. Guests and others who stay at the hotel greatly appreciate the added comforts. The Coleman Cafe adjoining, which is part of the hotel, though run under the management of Long Sam, has also been thoroughly re-decorated, and a real good job has been completed.

The painting and decorating was executed by Harold Suowdon.

### ST. ALBAN'S CHURCH, COLEMAN

Sun. Feb. 2, Holy Communion 11.15 a.m.

The J.W.A. will hold a pantry sale and tea on Sat. Feb. 1 in the parish hall from 3 to 6 p.m.

Mrs. A. D. Currie has been suffering from an attack of pleurisy, and will be unable to take part in church activities for about six weeks.

### FIRE IN EAST COLEMAN

On Saturday night the house of John Hrisook was burned to the ground, and with the contents was a total loss. Insurance was carried to the amount of \$2500. The head of the house was at work at the time, and the rest of the family were out for the evening. The blaze lit up the district quite vividly and the reflection was plainly visible for a long distance.

## One Show Saturday Night at Palace

Until further notice there will be one show commencing at 8 p.m. The big feature this week end is a cracking good show entitled "Little Johnny Jones," with songs, music, rac-horses and replete with action.

Manager Dow is hooking some of the finest attractions shown in western Canada, and has a good program lined up for next week, for which posters are being issued.

## NOTICE

### St. Paul's United Church, Coleman

A special meeting of the congregation will be held on Sunday evening next, Feb. 2, at the close of the evening service.

### Coleman School District No. 1216

## Annual Meeting

NOTICE is hereby given that the Annual Meeting of the ratepayers of Coleman School District No. 1216 will be held at the Town Hall on Friday, January 31st, 1930, at 8 p.m.

Dated at Coleman, Alberta, January 21st, 1930.

JAMES FORD,  
Secretary-Treasurer

## Reduce the Acid

SICK STOMACHS, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 60 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### Sunlight and Health

Ultra-Violet Rays Are Necessary To Life and Health

Have you ever noticed your lawn where a board or flower-pot has been for a few days. The grass will be yellow and will eventually turn white or die. It is the lack of sunlight and the ultra-violet rays which are necessary to the health and life of plants as well as human beings, animals and birds.

Poultrymen have discovered that the ultra-violet rays of the sun prevent leg weakness and other diseases, and promote growth in a marvelous way. Unfortunately ordinary glass does not allow these vital rays to pass through it with the red and other rays which we know as sunlight. However there is a glass substitute called "Windolite" which is flexible and yet unbreakable and that allows full penetration of these important ultra-violet rays. Up until a few years ago, turkeys were difficult to raise in confinement, but with the brooder houses fitted with "Windolite" they thrive as well as in natural sunlight and get a splendid start in life before they are allowed outside, especially when the weather is cold and wet.

"Windolite" is now being used extensively all over Canada for poultry houses and dairy barns as well as sun rooms, and in hospitals, and sanatoriums where sun baths are a regular part of the treatment of certain diseases.

### What Year Is This?

May Be Even Later Than We Are Dating It

Although the past year is recorded as 1929, it may really be, even an article in Tit-Bits, 1933, or even later. This fact is indicated by a record of an eclipse of the moon. Bible history says that Christ was born during the reign of Herod the Great. But Herod died in the spring of 4 B.C., the next date being fixed by a lunar eclipse which took place the night before his death. Obviously, therefore, Jesus must have been born not later than 4 B.C., and possibly earlier. The Church had no definite knowledge of the date of Christ's birth. It fixed the year, month, and day of the month arbitrarily. Astronomers are able to calculate the dates of past eclipses as accurately as those of the future, and so have determined the very day and hour of the eclipse that ushered Herod the Great out of this life.

### Farm Production In B.C.

Coast Province Establishes a New High Record In 1929

Value of farm production in the province of British Columbia totalled \$61,000,000 in 1929, a new high record. The increase over 1928 was \$5,000,000. Increases were distributed over every branch of agriculture and horticulture. The fruit industry, the centre of which is in the Okanagan Valley, had an output valued at \$8,250,000. Dairying showed an advance and the total value of products was \$12,500,000. Returns from poultry were more than \$4,000,000, an increase of nearly \$300,000 over the previous year.

### Missed a Fortune

Ignorance Of Geology Was Costly For Prospector

How a fortune was missed as the result of a Gold Coast prospector's ignorance of geology was revealed by S. Albert Kison at the recent meeting of the British Association. The prospector in search of gold dug a hole and unearthed manganese ore. Thinking it was iron ore, he took no notice of it. A geologist found the hole and realized the value of the ore. The spot has since proved to be one of the largest and richest deposits of manganese ore in the world.

### Now You Can See 'Em;

Hear 'Em At The Grand

Haven't you often wondered just what Moran and Mack "The Black Crows," looked and acted like? Haven't you thought how much funnier they would be if you could see as well as hear them put on their hilarious record and radio sketches? Now, you don't have to wonder any longer. Moran and Mack, the "Two Black Crows," have made their first movie, an all talking Paramount picture called "Why Bring That Up?" in which they introduce many of their best selling record hits and a bevy of new funnies.

"Why Bring That Up?" is from an original story by Octavus Roy Cohen, famous author of negro stories. You see and hear how the famous team of Moran and Mack came to join up and start the famous "Two Black Crows" show. You follow them along the path to fame with all its fun and adventure. You see them produce a lavish musical show in which they star. There's a girl mixed up in it too, she's Evelyn Brent, but you never see one of them married her in the end.

"Why Bring That Up?" is just downright good fun and you'll enjoy every moment of it when you see and hear it. Shown at the Grand Theatre, Regina, February 8, 4 and 5.

### SUNDAY SCHOOL LESSON

FEBRUARY 2

#### PUTTING GOD'S KINGDOM FIRST

Golden Text: "Seek ye first His kingdom, and His righteousness; and all these things shall be added unto you."—Matthew 6:33.

Lesson: Matthew 6:1-34. Devotional Reading: Psalm 145:1, 2, 7-13.

#### Explanations and Comments

Genuine Charity, verses 1-4.—"Ye therefore must be perfect, even as your heavenly Father is perfect" are the closing words of Chapter V. of Matthew, our lesson of last week. The scribes of the new kingdom must excel the Scribes and Pharisees in righteousness. Matthew next records Jesus' words about almsgiving, prayer, and fasting—three forms of good works of which the Pharisees boasted. Jesus emphasized the fact that righteousness is a transaction between man and his Heavenly Father, and into it no selfishness of what other man or thing should enter. Almsgiving, charity, that is genuine will not be given in order to receive the praise of men.

Genuine Prayer, verses 5-8.—"The Jews had certain times for prayer, and wherever a man was in the prayer hour arrived, there he stood and prayed. Some there were, hypocrites, who would pray in order to be seen. They planned to be found at prayer time in conspicuous places in synagogues, or at street corners. It was the appearance of righteousness that they coveted, not the righteousness itself; they sought to go to heaven by piety just as Ananias and Sapphira tried to gain a reputation for generosity by self-sacrifice when they were far from possessing either quality.

Faith I say unto you. They have received their reward. The Greek word means "received in law," and is the same as "received in drawing up receipts." Jesus called them, who deliberately planned to be found at prayer time in conspicuous places in synagogues, or at street corners. It was the appearance of righteousness that they coveted, not the righteousness itself; they sought to go to heaven by piety just as Ananias and Sapphira tried to gain a reputation for generosity by self-sacrifice when they were far from possessing either quality.

You can best talk to your Father in Heaven when you are by yourself. When you pray, consider not the place or the world and shut yourself in with God—enter into that inner chamber, your secret place where you can be alone with God, and having shut the door, pray to your Father who is in secret. For Nathaniel the place for prayer was under the fig tree; for Peter it was on the house-top. Jesus, Himself, made the mountains and the grass His sanctuaries, the places where He could have privacy to commune with God. Jesus is not disparaging public prayer, which He elsewhere commends; He is emphasizing the test of sincerity which private prayer affords.

And Thy Father who seeth in secret shall recompense thee.

### Conference In March

Livestock Men Of Canada Will Meet At Ottawa

A conference of livestock interests to devise ways and means of increasing production will be held in Ottawa, probably early in March. Hon. W. R. Motherwell, Minister of Agriculture, had plans for calling such a conference earlier, but was stricken with pneumonia, so it is expected he will be well enough to sit at a conference in March. Dr. Grisdale, Deputy Minister of Agriculture, will likely preside.

Dentist: "Which tooth do you want extracted?"

Pullman Porter: "Lower seven."

## Royal Bank Annual Meeting; Assets Exceed Billion Dollars

The annual meeting of shareholders of The Royal Bank of Canada, not only marked the close of the most successful year on record, but was rendered especially interesting by constructive addresses delivered by Sir Herbert Holt, president; C. E. Neill, vice-president and managing director, and Morris W. Wilson, general manager. Addressing the shareholders, pointed out that in spite of the losses incurred by thousands of investors throughout Canada and the United States, the strength of the business structure is well shown by the fact that the bank is looking forward to more than a moderate recession in business during 1930.

Dealing with conditions in Canada, Sir Herbert stressed the fact that neither the prospects in foreign trade nor the situation in Canadian industry, trade and agriculture, warranted pessimism concerning the outlook for the coming year.

### Industrial Advisory Council

After dwelling on the success obtained by President Hoover in inducing the active co-operation of industry throughout the country in the recent crisis, Sir Herbert urged that it would be to the advantage of Canada to establish a non-partisan Advisory Council, composed of men of outstanding ability, representative of industry, agriculture and labor. This council would bring about a closer approach between government, industry, agriculture and labor that would assist the

### Influence Is Growing

English-Speaking People Are Faced With Great Opportunities

Less than 175 years ago there were only 12,000,000 English-speaking people on the planet, or but three-fifths the population of France. In 1790, there were still but 16,000,000, while France had 26,000,000. Today there are nearly 200,000,000 who speak our tongue. They control all the Australian Continent, nearly all the North American, and much of the African and Asian. Their prospects for growth in numbers and wealth are unapproached by any other language group, for Canada, Australia, and South Africa are clearly destined to become populous powers. Taken collectively, the different nations and commonwealths have practical command of nearly half the world's surface and more than half its resources now available. Their sense of duty should equal their pride of race, and if they rise to their responsibilities their influence will indeed be potent.—New York World.

### Discovers New Drug

Having all the antiseptic properties of iodine, but not staining when applied to open wounds, a new drug has been discovered by Professor Hans Friedenthal, a physiologist at the Berlin University. He has named the new antiseptic "metaldin," which is said to be made by combining iodine with oxygen.

### Made Poor Job Of It

During a recent wedding, the bridegroom fainted, but the ceremony proceeded after a delay of twenty minutes. A cynical correspondent says that the bridegroom evidently hasn't learnt how to faint properly.

formulation and execution of effective measures for the maintenance of that equilibrium which would ensure stable prosperity.

### Vice-President's Address.

C. E. Neill, vice-president and managing director, submitted to the meeting a very interesting proposal by which Canada might benefit to a far greater extent from the tremendous tourist traffic that is coming annually into the country from the United States.

"Canada," said Mr. Neill, "is attracting approximately fifteen million visitors a year. This great annual migration presents an unparalleled opportunity for increasing our trade. As yet there has been no concerted effort to build the tradition that there are purchases which can be made in Canada more advantageously than in the United States. If we could make purchasing in Canada a habit, it would make a difference of more than one billion dollars a year in our trade."

### General Manager's Address.

Morris W. Wilson, general manager, reviewed the 60th annual report and balance sheet, for the year ending November 30. The figures, both of assets and profits, constitute a new record for Canadian banking. Total assets of \$1,001,447,411 are shown, being an increase of \$20,468,856 for the year. Deposits have gained \$64,020,923 and now stand at \$772,067,768.

### Investigate Land Values

Government To Check Over Lands Held As Security In Connection With Seed Loans

Appointment of L. J. Howe, deputy commissioner of lands for Manitoba, and R. Matheson, assistant commissioner of Dominion lands, as investigators into the value of lands held as security for the repayment of indebtedness occurred by farmers for advances of seed grain, fodder and other relief is announced in the current issue of the Canada Gazette. The appointment is made under the provision of the act, "Respecting Certain Debts Due the Crown."

This merely continues the practice of annually adjusting the obligations of the farmers who have enjoyed the advantages of seed-grain distribution, a return relative to which is automatically tabled in the House of Commons near the beginning of each session.

L. P. O. Noel, agent of Dominion Lands, at Winnipeg, is authorized to act in Mr. Matheson's place in any particular instance.

### Port Arthur's Population

Port Arthur's population, according to the assessment commissioner, is now 20,092, or an increase of 730 over last year.

"The African is the only happy human I have come across," said General Smuts, at Oxford, recently. "No other race is so easily satisfied, so good-tempered, and so care-free."

When the sewing machine for shoes was first introduced one man could do as much as 60 had done before by hand.

### New Building Record

Canadian Permits For Last Year Eight Per Cent. Higher

Building in Canada during 1929 made a new high record for all time. The aggregate total of \$235,553,000 in building permits exceeded 1928 by eight per cent, and was larger than combined totals for 1920 and 1921. The year 1928 was the previous high record with a figure of \$219,105,000. Figures were made available at the Dominion Bureau of Statistics.

(By Anabelle Worthington)

3029

### WORLD HAPPENINGS BRIEFLY TOLD

The protocol adopting the Young plan was signed at the second Hague reparations conference.

A total of 12,430 post offices operated in Canada last year according to a report just issued by the post office department. This is a decrease of 48 accounted for by the establishment of rural free deliveries.

A reduction in the war office estimates by a million and a half sterling in the next budget, is foreshadowed in the London Daily Herald, as a consequence of the government's drastic revision of expenditures.

A search is now being conducted for an old post of the Hudson's Bay Company, and the fort of the Northwest Company which stood close to the Saskatchewan River, about 80 miles north of Saskatoon.

Hon. F. J. Cook, Minister of Finance in the Newfoundland Government, told the Canadian Press that Newfoundland would balance its budget this year for the first time in a decade.

Owing to the increase in the number of cheques drawn by persons who have not sufficient funds on deposit to meet them, the banks of Ottawa have decided to make a charge of 50 cents for every such cheque issued hereafter.

Commissioner George Mitchell, international secretary for the Salvation Army's work in Europe, and in the British Dominion, died recently in London. He began his career with the Army as a messenger boy more than 40 years ago.

Executors of the late Gen. Bramwell Booth, former Salvation Army head, have been ordered by the chancery court to turn over to General Higgins, who now heads the Salvation Army, property valued at \$1,000,000 (\$5,000,000).

The beacon light of Brandon Aero club has been put into operation. It is one of the first in Western Canada, and it will be used to guide night fliers, not only on the regular air mail routes, but other airmen as well. Its flashing rays can be seen for miles.

### Pay Big Dividends

About Two Hundred and Fifty Millions Paid To Stock Holders in Canadian Corporations

Approximately \$250,000,000 was paid in dividends to stock holders in Canadian corporations in 1929, according to an estimate based on actual disbursements of more than 500 securities listed on the Canadian stock exchanges and others widely held by the general public.

During the year a number of bonuses or extra cash dividends were also paid. In the final three months of last year about \$10,000,000 was added to regular quarterly dividends.

British Columbia Salmon

Salmon caught in British Columbia is exported to over thirty countries in the world. The annual marketed value of the B.C. product is more than \$13,000,000.

The American gait is less than the English by one-seventh.

Smoker (whose cigar won't draw): "Now they have invented a smokeless cigar"—Tokio Pakku, Tokio.

W. N. U. 1822

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

# WINDOLITE

### THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

**Distributors: JOHN A. CHANTLER & CO., LTD.**  
51 Wellington St. W. TORONTO, ONT.

# Restless Children

Children will fret, often for no apparent reason. But there's always one sure way to comfort a restless, fretful child. Castoria! Harmless as the recipe on the wrapper; mild and pleasant as it tastes. But its gentle action soothes a youngster more surely than some powerful medicine that is meant for the stronger systems of adults.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is any need. In cases of colic, diarrhoea, or similar disturbance, it is invaluable. But it has everyday uses all mothers should

understand. A coated tongue calls for a few drops at once; constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed to set everything to rights. Genuine Castoria has Class H. Fletcher's signature on the wrapper. Doctors prescribe it.

lived in the canyons, and saw the sky only in small patches. Now I'm on top of the world."

"On top of the world," Al repeated, tightening his arm about her waist. "Yes, that's where we both are, and that's where we're going to stay. But not in New York."

"Why not, darling?" Grace turned to him quickly.

Al's smiling eyes grew serious. "Because—well, I've been thinking Grace, I don't want us to stay around Broadway too long. Broadway's all right, and we've conquered it—thanks to you—but there are other parts of the world."

"Yes, why not. Yesterday, when the revue closed, I told Marcus I was through with the stage. No more burnt cork make-up, no more singing—that is, not professionally. I want to devote all my time to song writing, and I can do that anywhere. So—why not California?"

"To live?"

"Yes, to live. Do you think you'd like it?"

"Then that's agreed." And Al leaned over and kissed Grace. "We'll live in California and whenever we want to come back to Broadway we can. It will be new to us and we'll have a swell time seeing the sights. And if we want to go visiting to the Alps, or to India, or China, or the South Seas—we can. In fact, we'll go anywhere your little heart desires."

Spring days, summer days and two figures, small in the distance, standing on that high balcony, talking in whispers of their love and their life in the future, which seemed to stretch before them like a silver highway melting into the mist. And then...

Night on Broadway once more, with the expensively garbed after-theatre crowds drifting into the Club Bongo. The name was the same, but there were new owners, and a new master of ceremonies. The jazz band played, the dancers swayed, and the master of ceremonies exhorted everybody to be friendly and have a good time. When the music ended and the couples left the floor the master of ceremonies looked about for a celebrity to introduce. Finally he found one and caught the attention of the crowd.

Ladies and gentlemen, he called through his tiny megaphone, "we are especially honored tonight by the presence of that famous star and singer—Mr. Broadway's 'Singing Fool'!"

Al and Grace occupied a table against the far wall. As the spotlight shot across the room and found them, Al rose slowly in response to Grace's urging. There was the old roar of applause that had greeted him so many times in this place, and calls for a speech and a song. He raised his hand and the room became silent.

"Ladies and gentlemen," he began, "as most of you know, this is where I had my first taste of success as master of ceremonies. So it's only right I should come here to say good-by. As I bowed in, so shall I bow out. To my pals and the place that treated me so kindly I have only the best in my heart."

"Somebody once said, 'Go west, young man, and I'm taking that advice.' Broadway's been both my menace and my playmate. Tonight we are parting—friends. I'm going west accompanied by the little girl who has stood by me so loyally, Grace! Grace Stone—my wife!"

Once more the thunderous applause and once more Al's raised hand, requesting silence.

"I don't want you to think I'm giv-

ing up song-writing, I shall continue to write songs and someone else will sing them. And folks—if any of you come to California I want you to visit Grace and me. You'll find us not in a little gray cottage, but in a forty-two room chateau by the blue Pacific, with a jag valet and a polo pony or two. If we're not in the butler, or the second man will tell you where to find us. . . . May you sleep well and laugh in your dreams. Goodby."

The crowd liked Al's humorous speech, but still the voices rose, demanding a song. "Singing to us, Al," they called. "Just once, for old time's sake."

Al turned to Grace: "What shall I give them?"

Grace blushed at Al's question. She had been thinking of a song she wanted him to sing, but she didn't know whether she could muster up courage to ask him. But finally she said: "Al, do you remember the first ballad you ever sang—down at Blackie Joe's?"

"Of course I do. But I shall sing it to you as well as to them."

He walked across the room and stood beside the piano, just as he had done that night four years ago at Blackie Joe's. Grace saw him confer with the pianist, then turn to face the audience. Then the familiar music came toward her, with Al singing the words—the poignantly appealing words of "Always."

They seemed to come winging straight to Grace in the stillness of the big room—words she knew by heart, words that had once meant pain to her. She knew she would never forget how Al had once sung them to another woman—Molly—while she, Grace, had stood against the wall at Blackie's club, her tray of cigarettes before her and her eyes fixed on the handsome young singer, in complete adoration. How she had suffered that night, knowing the man she loved was pouring out his heart to the other woman!

Again the song ended in a moment of breathless suspense, to be followed by ringing applause. And Al, slowly wending his way among the gay drinkers and diners, who reached out to shake his hand and pat him on the shoulder, finally reached Grace.

"How was it?" he asked, his eyes aglow with love for Grace.

"Marvelous!"

"Grace," he said softly, "it's your song, Al, yours!"

When the audience had turned its attention to the floor show Grace and Al slipped out of the club. They strove arm-in-arm down Broadway. Above their heads was the razzle-dazzle of many-colored lights and twinkling higher the sort and friendly twinkle of the stars.

## THE END.

Parling a corn is both risky and ineffective. It is better to use Holloway's Corn Remover and eradicate them entirely.

**Rare Buffalo Hides Found**

Painted Robes Which Have Almost Disappeared Discovered Near Ottawa

Students of earlier Indian life in Canada need no longer scour the prairies for rare painted buffalo hides which have almost disappeared. They can get them within 15 miles of Ottawa.

The other day the Dominion archaeologist of the National Museum, Ottawa, announced that he was in the market for painted robes. He was shown one owned by a man in East Templeton, Que. The unharmed side is covered with a painted design, while the hide is so ancient that patches in it still show the old chest-thrusting used by the Indians before the advent of the white man.

Use Minard's for Neuralgia.

Alberta Electric Power Over 800 miles new electric power transmission lines were built by 1929 by a power company in Calgary, providing electric light and power to 51 cities, towns, villages and hamlets in Alberta.

Forests cover 22 per cent. of the area of California.

That the bat is the only mammal that can fly.

## WHY SUFFER FROM YOUR LIVER?

Why be handicapped with untidy blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. Headaches, Dizziness and Biliousness surely follow. You must stimulate your liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following. On the contrary a good tonic. All Druggists 25c and 75c red pills.

## World-Wide Survey Of Film Industry

Statistics Compiled At Geneva Show \$4,000,000,000 Invested In Moving Pictures

A total of \$4,000,000,000 is now invested throughout the world in the motion picture industry according to statistics just completed by the International Labor Bureau, at Geneva.

So great is the number of employees engaged in the industry that the International Labor Organization has made a study of the industry according to statistics just completed by the International Labor Bureau, at Geneva.

Most of the \$4,000,000,000 have since been invested in the industry about half the sum belongs to the U.S. concerns where the industry ranks third after foodstuffs and automobiles.

As regards employees, the United States naturally leads in the industry with 225,000 workers; 30,000 super, and several thousand artists.

The largest German firm employs 4,000 workers; the French studios give employment to 1,000 workers, 1,000 technicians, and 4,000 people, while in England about 70,000 people earn their living from the industry.

The recent origin and the rapid growth of the industry has been such that it has not been possible to provide for any international regulation and very little national legislation has been done in the older and more stable lines of industry.

With the results of the world-wide investigation of the movie industry which the International Labor Bureau has just completed it expects to take up later all the problems of work hours, health and safety of employees, employment of children and similar questions.

## Appointed To Supreme Court

Mr. Justice Cannon, Of Quebec Court Of Appeals, Is Selected

Mr. Justice L. A. Cannon, of the Quebec Court of Appeals, has been appointed a Justice of the Supreme Court of Canada. The appointment of Mr. Justice Cannon fills the vacancy caused by the retirement of Mr. Justice Mcguinty. No successor has yet been selected for Justice Cannon on the Quebec Court of Appeals.

Announcement of the appointment was made by Hon. Ernest Lapointe, Minister of Justice, following a meeting of the cabinet at Ottawa.

Sores Heal Quickly.—Have you a sore? It tends money on automobiles, trucks and tractors. The value of the car is determined by an appraiser and then a loan is extended for 50 per cent. of the value. While the loan is outstanding, the car must be kept in a special garage kept by the pawnshop. The borrower must also pay garage rent to the pawnbroker.

**Killed By Sharks**

Unfortunate Victims Were Shipwrecked In Squal In Southern Seas

A message from Port Louis, in the Island of Mauritius, reported that five persons had been killed by sharks in the Bay of Tamourin, after their motorboat capsized in a squall.

The five were members of a party of six engaged in shark fishing. They all attempted to swim to shore, which was two miles away, but the sharks caught all but one.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

**Has Large Output**

It has been estimated that the output of a well-known gramophone record factory during the past twenty-one years would take over 1,000 years to play, counting twenty-four hours a day, every day of the week, and not allowing time for changing needles.

Japan's population is estimated to have increased by 1,000,000 in the last year.

A single banyan tree has been known to shelter 7,000 men at one time.

## Advices Against Skyscraper

American Architect Tells London Builders To Avoid Them

An American architect, who builds skyscrapers, has advised British skyscraperists not to erect any in London.

William A. Delano, president of the New York branch of the American Institute of Architects, speaking before the Architecture Club in London, England, said he felt that Americans "are gradually being crushed by these monsters which have made life about as sterile as it can possibly be for the ordinary man."

"I hope you will not be captivated by this particular phase of our experiment," he said. "Unless you are ready to swallow our civilization whole it would seem a mistake to copy any part of it."

## THE RESPONSIBILITY OF A FOND MOTHER

Her child is a never-ending source of joy and a never-failing responsibility to the fond mother. It not infrequently happens that minor ailments of the child distress and puzzle her; she does not know just what to do, yet feels them not serious enough to call a doctor. At just such times as these it is that Baby's Own Tablets are found to be mother's greatest help and friend.

Most childhood ailments arise from a derangement of the stomach or bowels. Baby's Own Tablets will immediately banish them by cleansing the bowels and sweetening the stomach. Thus they relieve colic, correct the digestion, banish constipation and make teething pains disappear.

Baby's Own Tablets are guaranteed to be free from injurious drugs such as opiates and narcotics and may be given to the newborn babe with perfect safety and beneficial results. They are sold by medicine dealers, by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

## Fashions and Freedom

Men More Concerned Than Women About Correct Clothes

That all women are, as a matter of course, terribly excited over matters of style in dress and "the latest thing," and all men are sublimely indifferent is nonsense. If there is any part of the esteemed human race that has a more mortal terror of being seen in habiliments that are not what "they" are wearing it is certainly the masculine half. Because the style of men's clothes is based on the idea of lack of change is no valid argument that there is a "fundamental psychic difference."

The code is different, that's all. That men have achieved the time-saving idea of an unchanging mode is, anyway, largely a matter of luck, more than careful planning.

## A New Pawnshop

A pawnshop which does a business on a large scale has been located at Prague. It lends money on automobiles, trucks and tractors. The value of the car is determined by an appraiser and then a loan is extended for 50 per cent. of the value. While the loan is outstanding, the car must be kept in a special garage kept by the pawnshop. The borrower must also pay garage rent to the pawnbroker.

## The Singing Fool

By HUBERT DAIL  
Copyright, 1928, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, marries Molly Winton, a ballad singer, not knowing he is loved by Grace Farrell, a little celtic girl who has become famous as a composer of popular songs, Molly loves with John Perry, taking her baby Junior. Al, broken by his loss, becomes a derelict, but is saved by Grace Farrell. Molly obtains a divorce. One night, while Al is appearing in a Broadway revue, he is called to a hospital by Molly because Junior is dying. After his boy's death Al breaks down on the stage while trying to sing. Months later he recovers from this blow. Then he and Grace are married at the City Hall Around the Corner.

### CHAPTER XXXII.

Grace came out of the church door proudly, leaning on Al's arm, to face the news photographers who had, somehow, learned of the event. The cameramen did not have to tell Grace and Al to smile. Their faces were radiant. When this ceremony was over they stepped into a limousine and went whirling up the Avenue among the fantastic skyscrapers that seemed to Grace Al rosy and pink against the deep blue afternoon sky.

... And later?

Spring days came and the mellow approach of summer. Up and down Broadway and in all the cities, towns and hamlets stretching across the continent they were singing the songs Al had written—new songs that reflected the happiness of his new life with Grace.

Grace and Al lived in a new apartment in one of the new Fifth Avenue buildings, four floors above the roar of the city streets, with a little balcony that was like a hanging garden of Babylon. In the long early summer twilight Al and Grace could stand on that balcony and look down on the most fabulous city of any age. The rivers twined their silvery way on both sides of the island of Manhattan, the great liners came from the sea, and Broadway at night cut, like a yellow streak, diagonally across the island.

"How strange to find me here," whispered Grace softly one evening, as she snuggled against Al's evening, and protecting a-m. "I who worked at Blackie Joe's so long, and

#### NOTES AND COMMENTS

Last year there were three people present at the annual meeting of the ratepayers, in addition to the members of the council and the school board. To-morrow evening the annual meeting will be held to review the work of the year 1929. Ratepayers are urged to show interest in civic affairs by attending the meeting. It is the place to secure information and enlightenment as to why this and that was done. If you have any ideas on how you can improve civic administration, then the ratepayers' meeting is the place to air your views. They will be given more serious attention than by merely vamping on street corners.

Two faithful representatives of the people resign office this year. Mayor Burns has held the executive chair for many years. He has given of his time and energy towards community welfare, coupled with enthusiasm for advancement of the town.

Tom Johnson, chairman of the school board, through ill-health, is forced to relinquish office. Both deserve the thanks of the ratepayers, for they have measured up to their duties as citizens and accepted their full share of responsibilities. Particularly Mayor Burns deserves more than passing recognition, for his service as mayor covers eight or nine years with almost as many more as councillor.

Premier Brownlee is non-committal as to when the next provincial election will be held, but the signs portend it will take place this summer.

The question arises as to who will receive the nomination in this district. Labor having the predominant vote, neither a straight Liberal or Conservative can win the seat, therefore the man nominated will be a direct representative of the Labor forces. But no matter which party a man may belong to, if he is of the right type, he can accomplish good work for this district. It is hoped that the nominating convention will give earnest consideration in selecting a man who measures up to the exacting standard required of government representatives, and not be stampeded into voting for the first office-seeker who bobs up looking for the candidature.

Coal imports into the Manitoba and Head of the Lakes area for November were 142,369 tons of bituminous and 6,875 tons of anthracite coal. --Western Canada Coal Review.

**A WILL**  
*that can't  
be broken*

**An EXPERT  
Executor  
without cost**

**A** LIFE assurance policy is a will that needs no lawyer to explain and no judge to interpret.

It is clear, final, unbreakable.

If, instead of being paid in a lump sum, the proceeds of your policy are left with the Sun Life Assurance Company of Canada, you obtain, free of cost, the most expert fiduciary service in the world for your dependants.

Your assurance estate is conserved to meet obligations not fully matured at your death; to care for your wife; and to educate your children.

The earnings and any part of the principal can be paid over at regular designated intervals as desired.

Your modest funds are merged with those of a great corporation and share in the wonderful earnings from that Company's investments.

Your affairs can't be muddled by an incompetent neighbour executor.

NO RISK • NO WORRY • NO EXPENSE

The best way to create an estate, and the best way to conserve an estate, is by life assurance.

Consult a Sun Life representative for particulars.

### HERE AND THERE

Canadian Pacific farm sheep swept the board at the Edmonton show recently with three champions including the any age Suffolk ram and ewe. Other winners including sixteen first were credited to the Experimental Farm at Strathmore, operated by the Canadian Pacific Railway.

Two employees who have together completed over one hundred years in C. P. R. service were complimented by E. W. Beatty, chairman and president of the company, during his recent tour through the Maritime provinces. They were Charles Henderson, who acted as conductor on the president's special and who started railway work in 1876, and Harry Saunders, engineer of the special, who has been in the company's service for 48 years.

Editors representing the leading farm papers of the United States will tour Eastern Canada by special train next summer as result of a joint invitation extended to the American Agricultural Editors' Association at their annual convention recently held at Chicago, by representatives of the Canadian Government and the Canadian Railways. The tour of Canada will last fifteen days and will afford the visiting editors an opportunity to study the agricultural and industrial development of the provinces of Ontario, Quebec, New Brunswick, Prince Edward Island and Nova Scotia.

'Fresh from the gardens'

### Forward, Canada!

Lying latent in the nature of almost every individual there is one human characteristic which comes to full bloom in times of excitement, emergency, or undue stress. It is the tendency to indulge in exaggeration. A crowd assembled for some particular reason and the average person estimates the number at two or three times its actual size, or an accident occurs and the report is immediately circulated that the toll of the dead and injured is many times greater than the reality.

So, too, when times are good the impression becomes general that they are better than is really the case, and a "boom" is created, speculation is indulged in far beyond what the circumstances warrant, and the end is ultimate loss, and in some cases disaster. Here in the West indications in any year may point to a fairly large and satisfactory crop yield, and the inevitable tendency is to make estimates of the yield far in excess of what the harvest reveals.

Turning to the other side of the picture, and the same thing will be found to be true. A slump occurs in business, the returns of the crop season are below the average, a degree of unemployment exists, and almost immediately the human tendency to exaggerate comes into play, and everything is painted in much more somber colors than there is any justification for so doing.

This tendency to undue exaggeration is in evidence in Western Canada today to the detriment of the whole country, and to every person resident therein. Recognizing the fact that the crop of 1929 was disappointing and below the average of many years, coupled with the further fact that the burden of the loss has to be borne by certain sections of the country which harvested little or no grain, the impression is created of a practically total crop failure, and that the country is in no good. Such exaggeration ignores the splendid returns of former years, and takes no cognizance of the fact that, taken on the whole, and year after year, Western Canada has been forging steadily ahead. One swallow does not make a summer, nor does one crop shortage, or even failure, condemn a country or provide substantial ground for discouragement and depression, any more than one bumper crop establishes the fertility of any section or justifies a "boom" and extravagant expenditure.

At this time the people of Western Canada, in city and country alike, may well give consideration to, and base their actions upon, the average of conditions. If the grain crop was smaller than usual in 1929, in 1928 it was so big that it shattered all records; if 1929 grain crop fell below the average, dairy production, in Saskatchewan, for example, increased by three and one half million pounds, a 30 per cent. increase over 1928. The figures of building construction in the West, last year, established new high records; employment was maintained at a high ratio throughout the entire nine or ten months of the year, and the present slump is only seasonal and temporary, with prospects for 1930 just as bright as they were in 1929.

Let us remember that if the export of agricultural products by Canada fell off in the last half of 1929, the grain is still in Canada to be transported by our railways and sold by our people, and the results will be reflected in the business activity of 1930. Let us be encouraged by the fact that the greatest of our great Western enterprises, the Wheat Pool, has successfully contended with a set of the most difficult circumstances. It has been put to the test, but with the united support of all Canada's banking institutions and business and commercial interests generally, it is now quite evident that it is winning out in its great fight to protect the interests of Canada's great army of producers.

It is impossible in this world for any person, country, or corporation, to forever move forward, onward and upward. It is inevitable that periods of recession must interrupt such steady progress. The stock market cannot forever go on climbing higher and higher; it must take a drop some time. If the pendulum swings too far one way, it must swing back again, because an equilibrium must be maintained. We cannot always live in the rarified heights; it becomes necessary at times to descend into the quiet and repose of the valleys.

The position of Canada, and of all Canadian industry, agricultural, manufacturing, commercial, is essentially sound and strong; stronger than that of almost any other country in the world. There is no justification for any depression, because no cause exists for it. To the extent that it is prevalent with some people it is largely a mental condition. Reverses have been suffered by some people in Canada as in other lands, and occasions arise in the life of every one when they meet with a reverse. But a reverse is not defeat. Courageously faced it can be turned to victory.

### Putting Radio To Test

Soviet Radio Station Convinces With  
Byrd's South Polar Party

Over 12,420 miles of sea and land—the northernmost and southernmost outposts of civilization—converted recently by radio.

The Soviet radio station in Franz Joseph Land, compared weather with Rear-Admiral Richard E. Byrd's south polar party.

The Soviets described an Arctic dawn, and the Americans replied with a description of an Antarctic night-fall.

Byrd asked the Russians concerning progress of the search for Capt. Carl Ben Eielson, American aviator-explorer, lost in the Alaskan Arctic since Nov. 9.

A fly no bigger than a bee has been recorded to go 815 miles per hour.

### Heavy Charge On Industry

Fires Are Costing Canada Almost  
One Hundred Million Annually

Fires cost Canada approximately \$100,000,000 yearly, according to a statement issued by the Canadian Chamber of Commerce in an effort to introduce to chambers and boards throughout the country a compost designed to lower this heavy charge on industry.

Business bodies have been classified into four sections determined by population, and a shield will be awarded by the chamber in each section for the organization showing the greatest reduction in fire loss, the most educational activity along fire prevention lines, and the most permanent structural and protective improvements.

Origin Of Old Superstition

According to a writer in the London "Sunday Times," the superstition that it is unlucky to open an umbrella in the house has its origin in Catholic times, when the priest carried the victim to the dying person under a small canopy in the form of an umbrella, as is still done in Catholic countries today. Therefore the open umbrella in the house became associated with the idea of a death.

Cheek Falling Hair With Minard's.

### Vacuum-Cleaners Are

Valuable In Mining  
Big Aid In Removing Coal Dust and  
Collecting It For Fuel

Can you imagine a vacuum-cleaner being agitated in a coal-mine? Housewives may scoff at the idea, but mining experts don't. They have discovered that vacuum-cleaners are a big aid in removing the coal-dust which settles everywhere in a mine, and collecting it for use as fuel. Coal-dust is frequently the cause of very serious explosions in mines, and it has been proved that even in quantities so small as one-fifth of an ounce to each cubic foot of space, it may produce an explosion. And the effects of an explosion of this kind are far-reaching—they are often at the worst 500 to 800 feet from the place where the trouble started. Various methods have been tried to prevent coal-dust explosions, one of the most widely used being spreading stone dust and sand on the floors of workings.

### THIN-BLOODED PEOPLE ALWAYS FEEL COLD

To Withstand The Rigors Of  
Winter The Blood Must Be  
Rich and Pure

Thin-blooded people slowly become discouraged. They lose strength; grip, influenza and ordinary winter colds seize them and they find it exceedingly hard to shake off any of these troubles. They feel chilly all the time; their nervous system is in a state of wreck; they cannot sleep and life becomes a burden.

To overcome this deplorable state of health good blood is essential. The good blood gives warmth to the body; it sends out the nervous impulses to either prevent colds and grip or to banish their dreaded after-effects. Dr. Williams' Pink Pills for the perfect blood builder—they never fail to make new, rich, red blood. They are the ideal tonic for winter use. Concerning their use Miss Kate L. Grant, Merlton, Ont., writes—"I was very much run down but found health and strength through the use of Dr. Williams' Pink Pills. After other medicines had failed to help me. Two years ago I felt tired all the time and no appetite; was nervous and cold all the time. Nothing I took seemed to do me any good till I began the use of Dr. Williams' Pink Pills. After a short treatment with them the draggy feeling left me; my appetite improved; my blood became warmer and my strength gradually increased. This enabled me to continue the use of the Pills and now I am feeling better than I have done for years."

Dr. Williams' Pink Pills do one thing but they do it well—they build up and renew rich, red health-giving blood, and they keep the body down and women strong, active and happy. These Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

California Lamba Eat Raisins  
At the University of California's there have been some lamb fattening tests carried out with raisins and other fodders. They show that lambs readily absorb a material weight of raisins or grain, and feed with other diet, and that the result is very nearly as fattening as whole barley and lucerne hay mixed.

Persian Balm—the one toilet requisite for the daily woman. Delightful to use. Leaves no stickiness. Swiftly absorbed by the tissues. Delicately fragrant. Imparts a velvety loveliness to the complexion. Tones up the skin, soothes and banishes all unpleasant roughness or chafing caused by wind and other weather conditions. Makes hands soft and white. Creates an elusive, essentially feminine charm. Persian Balm is indispensable to women of refinement.

Years ago good sleighing for Christmas week meant good business for the merchants. Nowadays if the cars can't run, the merchant is out of luck.

Optimist: "Cheer up, old man. Things aren't as bad as they seem to be."

Pessimist: "No, but they seem to be."

### Smothering Spells Couldn't Walk Far Gasped For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes—"For over a year I was troubled with smothering spells, and it was impossible for me to walk even a short distance, on account of having to gasp for breath."

### Air Must Be Charted

Pilots Should Know Exact Location  
Of High Mountain Peaks

Tragic was the fate of the two British airmen who crashed into the side of a mountain in Northern Alberta, and were killed, while attempting to make a non-stop flight from England, to Capetown. It is a reminder that mountains are a greater danger to airmen than rocks are to seamen.

The seas have been so travelled that almost every rock in existence is known, charted, and in some way marked by signs at night. Except for what earthquakes may do by changing the configuration of the bed of the ocean, there is probably no voyage that any ship can make without being fully prepared to avoid submerged rocks.

The air routes will have to be marked out in the same way. This is not the first time that airmen have come to grief through hitting a mountain.

The route to South Africa is across varied terrain. These airmen may have been flying thousands of feet high and felt they were quite safe, forgetful of the peaks which rear their heads far into the clouds.

Long distance passenger planes are to increase rapidly, and the pilots will have to be provided with charts which will show them how high they must fly along the routes in order to avoid hitting a mountain.

### Record Of Flying Clubs

Canada's Airmen Had 15,400 Flying  
Hours Last Year

Members of Canada's 23 light aeroplane clubs flew 15,400 hours during 1929, figures released by the civil aviation branch of the Department of National Defence show. This flying time is equivalent to 1 232,000 miles, and is nearly twice that flown in 1928. Total membership of the clubs is 5,099. At the end of the year there were 398 solo fliers, while 165 private pilots and 58 commercial pilots had graduated from the student ranks of the clubs.

In all infantile complaints that are the result of the depredations of worms in the stomach and intestines the Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

### Recipes For This Week

(By Betty Barclay)

#### SALMON CHARTREUSE

- 2 tablespoons gelatine.
- ½ cup cold water.
- 1 tablespoon chopped carrot.
- 1 tablespoon chopped onion.
- 1 bay leaf.
- 2 tablespoons chopped celery.
- 2 cups water.
- ½ teaspoon salt.
- Few grs. cayenne.
- Boiled or canned salmon.
- Lettuce; lemon slices.
- Mayonnaise.

Soften gelatine in ½ cup cold water. Bring carrot, onion, bay leaf and celery to the boiling point in 2 cups water and boil 4 minutes. Add softened gelatine, strain, add lemon juice, salt and cayenne. Put a layer of jelly in bottom of a mold that has been dipped in cold water. When firm cover with salmon and pour over remaining portion of gelatine mixture. When stiffened unmold on bed of lettuce, garnish with lemon slices and serve with mayonnaise.

#### APRICOT WHIP DESSERT

- 1 package lemon junket.
- 1 pint milk.
- ½ cup stewed apricots.
- 4 teaspoons sugar.
- 2 egg whites.

Make junket according to directions on package. Beat the egg whites until stiff, add the apricots, which have been put through a sieve, and mix thoroughly. Pile on top of junket when ready to serve.

The area of the world which boasts the least illiteracy is western Europe.

Minard's—The Great White Linctant.

### Use Ancient Method To Heat Cathedral

System Used In Roman Baths Duplicated In Great Liverpool Edifice

A system of heating similar to that used by the Romans in their sumptuous bath houses has been adopted for use in Liverpool cathedral, which, when completed will be one of the largest and most magnificent in the world, remarks Mr. Barry Watson, E.A., F.R., C.E., M.E., writing on "Heating the House," in the latest issue of Canadian Homes and Gardens.

"One of the earliest means used for the distribution of heat to points remote from its source, was that invented by the ancient Romans for many of their bath houses," he says. "This was the distribution of hot gases from the fire through underground ducts in the building, and it is a significant fact that this same system has just been installed in Liverpool cathedral with the difference that clean air heated by steam coils, instead of smoke and hot gases from the fire, passes beneath the stone flooring. In such a system the air of the building is heated by contact with the warm flooring, and upon expanding, due to heat it becomes lighter than the cooler air above and, therefore, floats gently toward the top of the building, while the heavier cold air falls to the floor, to be heated in its turn."

"This movement of the air is a simple example of gravity circulation, which in the principal upon which nearly all residential heating systems operate."

Help For Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, has its grip on the bronchial passage tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

### Award For B.C. Astronomer

Gold Medal Won By Director Of  
Dominion Observatory, At Victoria

The gold medal of the Royal Astronomical Society has been awarded to Dr. J. S. Plaskett, director of the Dominion Astro-Physical Observatory, at Victoria, B.C. It has been awarded for his valuable observations of stellar radial velocities and important conclusions derived from these observations. The Victoria scientist has accepted the Society's invitation to hold the post of George Darwin, Lecturer for 1930, in England.

The formation of large hailstones begins at heights estimated at between 15,000 and 40,000 feet above the ground.

The river systems of the earth are estimated to carry to the ocean each year about 5,500 cubic miles of water.

The lowest point for thousands of miles of the Andes is 10,000 feet above the sea.

### American Farmers Protest

Enter Claim Against British Columbia Smelting Company For Alleged Damage To Crops

A meeting of the international joint commission is to be held at Washington, D.C., when the case of the claims entered by the farmers of the state of Washington against the Consolidated Mining and Smelting Co. of Trail, B.C., will be heard.

Those farmers claim that the sulphur dioxide fumes from the smelter have done great damage to the fertility of the soil and, as a consequence, have caused financial loss to them. The case was heard in the state of Washington last year, when a thorough investigation was conducted on the spot by the international joint commission.

The smelters company have since proceeded to construct a plant which, by the Cottrell process, will extract the injurious elements from the fumes and which will turn them into fertilizer. The success of this effort, which will cost several million dollars, depends upon the market offering for such fertilizer in the prairie provinces.

Evidence taken before the commission last year showed that while some damage had been done by the fumes, this was scarcely so considerable as claimed. Smelters had been cognizant of the matter for several years and in its own immediate neighborhood in British Columbia, had settled it by purchasing the surrounding land to a wide radius. This method of adjustment is impossible in the United States, however, since the state of Washington has a strict law which prohibits aliens from owning property in that state.

Marie: Is it true that Margaret has a secret sorrow?

Annik: Why, yes; hasn't she told you so if?

Mahogany trees do not reach their full height until they are 200 years old.

**Needless  
Pain!**

People are often too patient with pain. Suffering when there is no need to suffer. Suffering until a head that throbs. Working though they ache all over. And Aspirin would bring them immediate relief!

The best time to take Aspirin is the very moment you first feel the pain. Why postpone relief until the pain has reached its height? Why hesitate to take anything so harmless?

Read the proven directions for checking colds, easing a sore throat; relieving headaches and the pains of neuralgia, neuritis, rheumatism, etc.

You can always count on its quick comfort. But if pain is of frequent recurrence see a doctor as to its cause.

**ASPIRIN**

TRADE MARK HERE.

## DELEGATES ARE WELCOMED BY CITY OF LONDON

London, Eng.—London city welcomed the delegates to the five-power naval conference, and as never before, perhaps, the old Guildhall resounded to pleas for international cooperation and goodwill. They threaded their way through the welcoming speeches of Sir William Waterlow, Lord Mayor, and the replies alike of the premiers of Great Britain and France.

And in the historic hall was much that told of the city's far-flung commerce and the part her traders had played upon the sea. The calls of the trumpeters, resplendent in gold-laced uniforms, rang back to the early days of the London guilds. About the walls hung tattered scraps of city regiments. The masts of an old square-rigged ship, all sails set, driving its way out to sea.

It was the mayor's need for peace that the lord mayor emphasized in his welcoming words. "The people of all nations," he declared, "are yearning for that international co-operation which will enable us to return with diligence and devotion to their peaceful vocations. The ultimate guarantee of security, individual or national, is always goodwill."

"To play its part among the peoples of this great world," Premier Tardieu echoes, "to make them understand each other and bring them together, commerce demands that there should be no war," he proceeded.

"I affirm in the name of all—Americans, British, French, Italians, and Japanese—no power on earth is going to succeed. We have faith, that faith which it is said moves mountains, and which, therefore—at least we hope so—will move naval armaments from the perilous waters of competition to the safer harbor of loyal understanding."

"We shall secure that triumph Premier Tardieu added, "because with heart and soul we are determined to win international peace through international law; because, following on the oft-repeated advice of my eminent friend and colleague Mr. Briand, we seek that peace which is the creative energy which we, in the past, devoted to the cause of national independence and national security."

Prime Minister MacDonald spoke briefly. London city, he said, stood in the forefront of British commerce and industry. The world's peace, he said, was more entitled than the corporation of London to proclaim such doctrines as those proclaimed by the lord mayor—that commerce and peace went hand in hand.

"There is no municipality that knows better by experience," Premier MacDonald added, "that international peace and confidence are the great foundation stones of international prosperity."

## Mountie Wins Promotion

Inspector W. W. Watson Will Be Stationed At Lethbridge

Ottawa, Ont.—The promotion of Sergeant-Major W. W. Watson to rank of inspector has been announced here at headquarters of the Royal Canadian Mounted Police.

During his 20 years of service with the force Inspector Watson has been stationed at various points in Western Canada and in the Capital. He served here in the Bureau of Criminal Investigation. Inspector Watson will now be stationed at Lethbridge headquarters for the southern Alberta District.

## Air Mail Service Deferred

Opening Date Set Back Owing To Delay In Installation Of Lights

Ottawa.—The date for opening of the western Canada air mail has been deferred owing to delays in completing the installation of lights along the route. The severe weather of recent weeks has prevented the work from being completed. Officials here could not hazard a guess as to the extent of the delay. There is little chance of its taking place before the middle of February.

Ends Long Snowshoe Journey

Ottawa.—Jean Baptiste Chouinard, a barber of Notre Dame Du Nord, Que., 435 miles north of Timiskaming, arrived in Ottawa after having snowshoed the 435 miles in less than 13 days. Mr. Chouinard has gone to Quebec City to participate in the Quebec City to Montreal snowshoe race on February 1. Later he will return to the capital to take part in the winter carnival.

W. N. U. 1922

## Habeas Corpus Writ

Application Of Harry Bronfman Granted By Supreme Court

Ottawa.—A writ of habeas corpus was issued by the Supreme Court of Canada on application of Harry Bronfman, wealthy liquor dealer of Montreal, who is under indictment before Saskatchewan courts on charges growing out of alleged liquor transactions. The writ is returnable on February 1, on which date Bronfman will be brought before the Supreme Court.

Saskatchewan authorities will then be required to show cause for his detention.

It is stated by court officials to be the first time in 25 years that a writ of habeas corpus has been granted in the Supreme Court.

The motion was made in Chambers to Mr. Justice Duff. Counsel included Eugene Lafleur, K.C., and Gregory Barclay, K.C., both of Montreal, and A. G. MacCallum, K.C., of Calgary. As the application was made on behalf of Bronfman, the court was not required to appoint a guardian of the person.

The prosecution is defective, Bronfman's counsel contended, because the charge is laid under the Criminal Code, when it should have been laid under the Customs Act. Furthermore, if laid under the Customs Act, the prosecution could not succeed because the charge would be outlawed. The Customs Act requires that charges must be laid within three years of the time the alleged offence was committed.

## Will Sell Power Plant

Moose Jaw Burgesses Decide To Sell Franchise To American Concern

Moose Jaw.—After a quarter of a century of municipal ownership, the city of Moose Jaw consented to the sale of its electric light and power plant to the Iowa Southern Utilities of Delaware, Davenport, Ia., by a sweeping vote of over three to one. The number of burgesses voting for was 2,250, and the number against, 744, a two-thirds majority being required for the by-law to carry.

By the passing of this by-law, subject to ratification by the Saskatchewan legislature, the largest power transaction in the history of the province will have been completed. Involved in the offer which has been accepted by the city is a sum in the neighborhood of \$3,500,000, the largest single sum of money to be offered for any public utility in the province.

The voting brings to a close one of the bitterest fought battles in the city's history, the power situation having been a bone of contention and discussion for over 12 months. The Board of Trade supported the sale; the local press opposed it.

## Canadian Boat Rammed

United States Coastguard Vessel Said To Have Pursued Vancouver Motor Boat

Vancouver.—The new Vancouver deep sea motor boat "Talithy Maru" was rammed by the United States coastguard vessel "Bonham" on January 17, and has been beached on one of the Quadra Islands off the western coast, according to advices received by the vessels owners here. A protest has been sent to Ottawa concerning the incident.

Capt'n J. Butler, master of the "Talithy" states that the vessel was bound for home when she was pursued and run down by the "Bonham." She had no liquor on board nor had carried any on the trip, he states.

## Sealed Letter Destroyed

Lawyers Burn Envelope Containing Name Of General Booth's Nominee

London, England.—The Daily News says that the sealed envelope containing the name of the late General Bramwell Booth's nominee to succeed him as head of the Salvation Army, was burned unopened by the solicitor of the Army, in the presence of several commissioners. The envelope had figured prominently in the discussions of Army affairs leading up to the removal of General Booth a year ago. Many General Booths had been made as to the identity of the man whom the general believed best fitted to succeed himself.

## Left Small Estate

Liverpool, England.—The estate of the late "Tay Pay" O'Connor, dean of the House of Commons, eminent writer and journalist, proves of a value of only \$1,000. This was decreed by the Canadian Press at the time of his death. The gold snuff box, presented by members of the House of Commons, is left to the House of Commons. His portrait by Bacon is left to the Walker Art Gallery, here. No provision is made for his wife, but she is otherwise well provided for.

## Saskatchewan Resources

Provincial Government Will Not Agree To Commission Suggested By Premier King

Regina, Sask.—Saskatchewan will not agree to the commission suggested by Premier King in his proposals for the return of the natural resources. The Provincial Government suggests a commission of three; one chosen by the Federal Government, one by the Provincial Government, and a third commissioner chosen by either the Imperial Government or both the Provincial and Federal Governments. This commission would bear the claims of Saskatchewan for all allegations subsequent to 1905.

The Provincial Government is prepared to refer its claims to the Supreme Court of Canada, subject to an appeal to the Privy Council, should the contentions of the Provincial Government be upheld by the courts. The question of the accounting between 1870 and 1905 would then be referred to the chosen commission. An agreement being arrived at, the question of compensation and the amendment to the constitution would then be submitted to the Provincial Legislature at an early date that it might be given effect to by the Imperial Government.

## FEDERAL AID IN DEALING WITH UNEMPLOYMENT

Ottawa.—If the provinces of Canada join together in admitting that they cannot cope with the unemployment situation, on the Dominion Government is prepared to discuss remedial measures with them, Premier Macdonald said today in a large delegation from the Trades and Labor Congress.

The Prime Minister added that the financial position of some of the provinces did not indicate that they were unable to cope with the situation, especially as it appeared to be largely seasonal. Unemployment, in the first instance, said Mr. King, appeared to be a municipal responsibility.

If it became too serious for the municipalities to handle, their appeal lay to the provincial government. If the province found that it could not cope with it, the problem became a national one, and the Dominion Government would expect to be asked to assist in solving it. But, in the absence of an admission by all the provinces that they were faced with a problem which they could not meet, the Dominion Government did not feel called upon to take action.

Both the Prime Minister and Hon. Peter Heenan, Minister of Labor, dealt with the unemployment situation. Mr. King informed the delegation the government has been pursuing a policy of keeping men employed on government contracts at work.

Both Mr. Heenan and Mr. King referred to the demand for a national unemployment conference.

Mr. Heenan insisted that he had not given the impression in his statement that he was unaware of unemployment. He knew there was unemployment, but he felt the calling of a national conference would exaggerate its importance in the public mind and perhaps accentuate the situation.

This was the view expressed by Prime Minister King. He made it clear that Mr. Heenan had voiced not merely his personal view of the matter, but the opinion of the government on the unemployment question.

## WAS PEACE ADVOCATE

Edward W. Bok, editor, author, philanthropist and earnest advocate of international peace, who died at his home in Lake Wales, Florida, recently at the age of 66.

## Letter Carriers Ask For Higher Salary

Civil Service Commissioners Promise Delegates To Consider Request  
Ottawa.—Serious consideration was promised by the civil service commissioners to requests for higher salary schedules for all letter carriers presented by a delegation.

The delegation presented data showing salaries paid in comparable employment, and discussed various sides of the question with the commissioners. The matter of increases in mail carriers' salaries occasioned a considerable amount of discussion in the last session of parliament. Hon. P. J. Venoit, postmaster-general at that time expressed himself in sympathy with the carriers' position, but pointed out the matter was purely one for decision by the civil service commission.

## Sheep Breeders Of Saskatchewan

Officers Are Elected At Annual Meeting Held In Moose Jaw

Moose Jaw.—W. C. Heron, Huntton, was elected president of the Saskatchewan Sheep Breeders' Association, at the annual meeting held in Grant Hill Hotel.

Other officers of the association are: Charles Buffman, Richard, vice-president; directors: I. J. Rushon, Rocanville; W. D. Lyon, Devon; W. L. Morrish, Oxford; James Whitehead, Nutana; A. Richardson, Semans; William Darnborough, Laura.

## Of Advantage To Customers

Quebec, Que.—We have established during the year a bank in Canada, in the city of Montreal. We have every reason to be satisfied that this direct line will be of advantage to any of our customers carrying on business between Great Britain and growing markets of Canada; stated F. C. Goodenough, chairman of Barclay's Bank, Limited, in his address at the annual meeting of shareholders held here.

## Quebec's Minimum Wage

Quebec, Que.—A minimum wage for women workers in the province of Quebec, outside the city of Montreal, has been adopted by the minimum wage commission, stipulating that workers with two years' experience should be paid at least \$10 per week. Apprentices will receive \$6 per week, with the rate increased by one dollar each six months.

## Named After Premier's Daughter

Towering 9,440 feet into the sky, the newly named Mount Isabel, so called after Miss Isabel Macdonald, daughter of the Labor Premier of Great Britain, is located about twelve miles west of Banff, in the Canadian Rockies, overlooking beautiful Mystic Lake. The Canadian Government have paid Miss Macdonald this graceful compliment in commemoration of her own and her father's visit to Canada last fall. The peak is visible from Banff, on the Canadian Pacific Railway, also from the roadway between Banff and Lake Louise. Miss Isabel Macdonald.

## Eleven Killed In Crash

Ohio Has Fourth Bus Tragedy In Three Weeks

Cleveland, Ohio.—Ten children and a bus driver were killed at Berea, Ohio, near here, when the bus was hit by a New York Central mail train bound for Chicago, at the Sheldon Road crossing, near Berea. Three other children, seriously hurt, were taken to the local hospital.

Cause of the tragedy was not explained. Weather conditions were clear, and officials were unable to account for the driver's failure to see the train.

Most of the victims were small children who attended from the first to the sixth grades.

The bus was said to have been carrying between 15 and 20 children. The crash was the fourth bus tragedy in Ohio in the last three months.

## Kept Link Unbroken

Radio Engineer Used His Body As Current Splice

New York.—His arms twirling with shocks from electric current, Harold Vivian, a young radio engineer, literally applied with his body a broken link in the vast hook up and made it possible for listeners of 59 North American radio stations to hear the King's speech at the naval conference.

Just before the King began monologuing in the control room of the broadcasting company tripped over the wires the famous Vivian grasped the wire together in his hands to restore the circuit. Leakage of current through his body to the floor shook his arms without a break, for 20 minutes until new wires could be connected.

## TO WIDEN SCOPE OF ALBERTA HEALTH CLINICS

Calgary.—State medicine is certain to be established in Alberta "and everywhere else," according to Hon. George Hoadley, provincial minister of health, speaking to the annual convention of the United Farmers of Alberta. He admitted he had an apology to make for the accusation that his approval of public health clinics in Alberta is the thin edge of the wedge of state medicine.

Comment from the Alberta cabinet ministers followed approval by the convention of a resolution widening the scope of the travelling health clinic in order to give free annual medical examination to every rural school child. Among a series of resolutions carried, was one favoring hurried completion of a Peace River rail outlet to the Pacific Coast.

The Peace River resolution urged the importance of fulfillment in the new features of Premier W. L. Mackenzie King's promise in 1924 that the line would be completed "as soon as humanly possible." Intention of the farm body will be communicated to the Dominion Government, the Canadian Pacific, the Canadian National and the Northern Alberta railways. It was stated that the route was now not financially difficult; that production of Peace River area has increased since 1924, and that 10,000 new homestead entries have been made in the district in the last two years.

A trio of resolutions directed to the Dominion Government favored decision by parliament, rather than by the Canadian prime minister in setting the date of Dominion elections; suggested legislation to require food products in containers to carry the name of their country of origin; and requested appointment of a committee to inquire into the feasibility of grading all products offered for sale in Canada.

Mr. Hoadley's forecast on the future of state medicine involved a statement that larger units than the municipality, as organized at present, would be necessary in development. He believed that the units would have to be large enough to be able to support equipment adequate for cure and prevention of disease. Previously, the convention had instructed the central U.F.A. executive to make a full investigation of state medicine in all its branches.

If the Alberta legislature provides the necessary finances, Mr. Hoadley mentioned, the Department of Health intends to employ a specialist in connection with examination of the eyes of children. He stated that since 1924, 24,000 school children have been treated by the public health clinics of the province, the only system in existence on the continent. Not a single death has resulted in the last three-quarters to make the short journey and missed the piquant spectacle altogether.

## WHEAT SUPPLY SHOWN TO BE ABOUT NORMAL

Winnipeg.—All through the present crop season there has been emphasis of the large stocks of wheat in Canada. The "visible supply" has been held up to the world as representing a formidable total, but seldom has any mention been made of the "invisible supply," which at mid-January was estimated to be 60,000,000 bushels less than a year ago, and considerably smaller than the "invisible" on the same date in any of the past five seasons. By the "invisible supply" is meant the amount of wheat that farmers will haul to market after taking care of seed and feed requirements on the farm.

On January 15, this year, it was estimated that only 21,000,000 bushels of wheat remained to be delivered by the farmers in Western Canada to the end of the crop year on July 31, 1930, as compared with 82,000,000 bushels delivered in the same period in 1929, 102,000,000 bushels in 1928, 52,000,000 bushels in 1927, and 45,000,000 bushels in 1926. A short crop and unprecedented movement from the farms last fall under ideal weather and road conditions are accountable for the small farm reserves at this time.

Turning to the "visible supply," which includes wheat stored in country elevators, interior and lake terminals, loaded on boats for winter storage and in all other positions except on the farms, it is seen that the stocks at mid-January this year were larger by some 3,000,000 bushels than those of a year ago, but with 60,000,000 bushels less to come off the farms there is a difference of 57,000,000 bushels in favor of the current season.

Allowing for exports at the same rate as last year between January and July 31, it would mean that the large carry-over of last year would be reduced by that figure and that Canada would start the next crop season with less than 60,000,000 bushels compared with 120,000,000 last year, and 78,000,000 bushels the year before.

## Reporting Naval Conference

World Will Receive News Through Four Hundred Correspondents

London, England.—The world will receive news of the five-power naval negotiations through nearly 400 newspaper correspondents accredited to the conference, who will have offices in St. James's Palace throughout the proceedings.

An historic room of the palace, the guard room, where tradition has it King Charles I. slept the night before he was beheaded, is the local point of a network of cable and telephone communications extending to the four corners of the globe.

Press wires run direct into St. James's Palace for the use of a special corps of staff correspondents representing the Canadian Press, the Associated Press, and other press services, while direct telephones also are available for everything from local calls in London to trans-Atlantic calls.

## Want Patrol Augmented

Not Strong Enough To Enforce Law Says U.S. Immigration Official

Washington, D.C.—Immigration officials want more men on horseback to patrol the Canadian and Mexican borders, and more ship sleuths to search out stowaways.

Testifying before the House appropriations sub-committee for the Labor Department annual supply bill, Immigration Commissioner Harry E. Hull and his assistant, W. H. Wagner, painted the border patrol of the present in glowing colors, but declared that immigration laws cannot adequately be enforced unless it is augmented.

## Cook May Be Paroled

Leavenworth, Kas.—The Leavenworth Times says that a parole has been recommended for Dr. Frederick A. Cook, Arctic explorer and oil promoter, who is serving a sentence of 14 years and nine months in the federal prison here for using the mails to defraud. Members of the parole board would not confirm the report, but it is known that no opposition was offered to Dr. Cook's release.

## Lloyd George Missed Speech

London, England.—Sir Hon. David Lloyd George was left out in the fog while the King delivered his address at the opening of the naval conference. The Liberal leader, and wartime premier, was absent for about three-quarters to make the short journey and missed the piquant spectacle altogether.

## Local News

The L.O.L. held a very enjoyable whist drive and dance last evening.

Salvation Army services will be held on Sunday at 11 a.m., 2:30 and 7 p.m. Evelyn Fleming and Alward Dodge will lead the children's service.

A correspondent to the Lethbridge Herald suggests that the money collected by the provincial government in liquor permits be used as a special fund for the relief of distress. In Alberta he claims \$100,000 is taken in each year for these permits.

The Ford Motor Company announces it will spend \$30,000,000 in the United States alone in 1930 for plant equipment and improvement. The upkeep on a car apparently doesn't rest wholly upon the individual driver—Christian Science Monitor

The output of the Crows Nest coals for November was 63,585 tons, as against 81,964 tons for the same month in 1928. The decrease of all fields in the province was 128,672 tons for the month as compared with November of 1928. This clearly demonstrates the reason of the coal industry having experienced a slump, as coal shipments from the province will likely show over 200,000 tons less last year as compared with 1928.

## Here and There

(401)  
The latest passenger liner into the port of Saint John in 1928 was the Parisian, of 4,500 tons; nowadays the 20,000-ton Duchess of York is but one of four "Duchess" ships using the port, said Hugh A. Allan, founder of the Allan Line of Steamships, on landing at Saint John recently, and commenting on the growth of the port. He was certain it would continue to grow in the future as it had done in the past.

There is a huge market in Europe for breeding silver foxes which will absorb all that Canada has to offer for many years, is the view of J. S. Wetlock, of St. John, passenger on the Duchess of York, who has been spending some time in Sweden where he established a fox farm stocked from his farm on Prince Edward Island.

Sponsored by Hon. R. Randolph Bruce, Lieutenant-Governor of British Columbia, and under direction of Harold Eustace Key, musical director for the Canadian Pacific Railway, the second annual sea music festival has just been held at the Empress Hotel, Victoria, with great success. Artists of international repute took part in the revival of the sea chanteys that men sang when wooden ships manned by iron crews sailed the Seven Seas.

During the five years that the Canada Colonization Association has been under the control of the Canadian Pacific Railway, it has settled 4,270 families on 144,325 acres at a purchase price including equipment of more than \$33,000,000, was the statement of W. M. Neal, general manager of the railway's western lines, speaking at the first annual meeting of the Saskatchewan branch of the Association held at Regina recently.

A vast amount of serious work is being done along constructive lines in oil development in Alberta, G. G. Ommanney, director of the Canadian Pacific Railway's department of development, stated in a recent interview at Winnipeg. A million barrels of oil had been taken from western Canada last year and prospects were good for greater production in 1930, he added.

Seven Canadian Pacific special trains will be required to carry some snowshoes, members of clubs in Quebec Province and New England, who are coming to the convention of snowshoe clubs to be held at Ottawa February 1-3. Two special trains will be needed to carry the delegation from Maine centres and two more for that from Montreal.

Another new Canadian Pacific steamer took to the water recently at Glasgow when the "Princess Elizabeth", 5,000-ton vessel for the British Columbia Coastal Service was launched from the yards of the Fairfield Shipbuilding Company at Govan by Mrs. R. B. S. Roford, daughter of W. R. MacInnes, vice-president of the Canadian Pacific Railway. The ship can reach a speed of 16 1/2 knots, will have sleeping accommodation for 465 passengers and day accommodation for 1,500.

Fish caught in the inland lakes of the Province of Saskatchewan have an annual value of over \$500,000. Among the principal kinds of fish caught are salmon, trout, pickerel, pike, sturgeon, mullet, trout, lalabee and white fish.

## COPY OF ORDER OF NOTICE

Commonwealth of Massachusetts  
Hampden County, ss: Jan. 7th, 1930  
SUPERIOR COURT

Nora Mitchell of West Springfield, in said county, Plaintiff  
Northwestern Casualty & Surety Company, a corporation duly established by law and having a usual place of business in Springfield, in said county, and Silva Scitote of Coleman, Province of Alberta, Canada Defendants.

This is a bill in equity to collect a judgment recovered by the petitioner against the respondent, Silva Scitote, on or about the third day of December, 1929, the amount of said judgment being \$4072.50 damages, and \$55.65 costs, making a total of \$4728.15. The purpose of this bill is to reach and apply on said judgment certain insurance money provided in a certain contract or policy of insurance issued by the respondent, Northwestern Casualty & Surety Company, to the respondent, Silva Scitote, and that the said respondent insurance company be ordered to pay to your petitioner the amount of said judgment with interest thereon from the date said judgment was entered and also the costs of this action.

It appearing that the said defendant, Silva Scitote, resides out of this Commonwealth, and no service of process has been made upon him within this Commonwealth, it is ordered that he appear in said Superior Court within two months from the first Monday of February, next and answer to said complaint, and that an attested copy of this order be served on said defendant, Silva Scitote, personally, if possible, or published in The Journal, a public newspaper printed at Coleman, Alberta, Canada, three times in different weeks, within thirty days after the date of this order, the last publication to be fourteen days at least before the first Monday of March, next.

Attest:  
CHARLES M. CALHOUN, Clerk.  
A true copy.
